Commissioner for Patents

Art Unit: 2624

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Chen et al (6243498).

Chen et al '498 discloses (column 2, lines 7-48) a feedforward compensation processor comprising a multiplier which detects a set of pixel signals to form a video image, receives the image and identifies noise in the image as fixed pattern noise or temporal noise. In the latter case, the detected pixel signals are unmodified (i.e. multiplied by unity, readable upon the recited multiplying by "one of a noise reducing constant and one") which is supplied by a shunting multiplication processor in the presence of one of a fixed pattern noise and a temporal noise in a video image frame.

Allowable Subject Matter

3. Claims 3-20 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter:

Re claims 3, 8, 13, & 18 (and dependent claims 4-7, 9-12, 14-17, & 19-20), the art of record does not teach or suggest the recited arrangement of selective multiplication of one of the

recited first and second multiplication constants generated by the recited frame processings.

Response to Arguments

5. Applicant's arguments filed 19 January 2004 have been fully considered but they are not persuasive.

Applicant argues (Paper #10: page 8, lines 5-10) that claim 1 as amended incorporates the "noise reducing constant" language previously indicated as allowable.

However, the language of amended claim 1 recites the "noise reducing constant" and "one" as alternatives in such a way that a reference that teaches either of them is readable upon the claim as written. As noted above, an unmodified signal is readable as a signal multiplied by unity (one).

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action

Art Unit: 2624

is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
